

## Five Stars Review

I called 5 different places to repair a broken window (Smash & Grab 🤔) and the dealer quoted me at \$750 with a 3 week wait!!! Outrageous. Thankfully, Gino and this team were able to negotiate the best deal for the window and install within 3 days, at my home, for only \$299 + labor. I couldn't be happier with the service, courtesy and professionalism. Gino even offered helped me clean the tiny glass that got EVERYWHERE. He's truly a fair man and an expert at his craft. If you ask around you'll find he's the most transparent, convenient and best repair specialist in San Diego.

I called 3 different places to repair a broken window (Theft & Grab) multiple window repair companies quoted me max \$400.00 with a 1 week waiting period for a 2008 Honda Accord!!! In my opinion, this is ridiculous.

However, when I called Gino there was no additional hassle. He offered same day service at \$250.00. Not to mention, this included tax. He was very professional and transparent. He vacuumed my car out and swept up the glass in front of my garage from replacing the window.

Quality customer service is very difficult to come across now and days, especially due to the pandemic. I couldn't be a happier paying customer. He is truly a honest hardworking man who represents his company well. It barely even took an hour to replace the window.

I am going to echo the same comment mentioned in the previous review, if you ask around you'll find he's the most transparent, convenient and best repair specialist in San Diego, in my opinion.

My experience with A Auto Glass was great. From the request for quote, easy to enter the car information on their page, I received a call back in 10min with a very competitive quote vs other options at internet. Naji was at my home at the agreed time the same day and took him around 30min to replace my broken windshield. It was great and I highly recommend this service because it convenience and value.

Got my car window shattered last night which was a bummer! But Gino and his associate were quick to help me out. They even service me at my own home which was so convenient! Extremely friendly and professional. It took all of 5 minutes to replace the window and clean out the glass. I would strongly recommend this place to anyone in need of glass replacement or repair!

Someone busted out my passenger and quarter window last night. Called Gino in the morning and got quick same day service! He was professional, and did an amazing job and was able to provide original glass for my car. Would definitely recommend and rate more stars if I could!

Very professional! Arrived on my lunch hour for mobile service! He was finished with the work with 40 minutes and guarantees his work! You will definitely be taken care of when you do business with Auto Glass Services. He even changed out my wipers for me. If you need auto glass, this is the place to call. Support local businesses!
